5. Talked to Ken Belieu indicating Ward and Paul had inadvertently bound the transcript of the Director's appearance on 24 February 1960 in the wrong order and since about 30 pages were involved it was thought desirable that the job be redone. Belieu agreed. In addition, I suggested that if there was no objection by the Committee, the Director's statement could be bound into the record as could also the one piece of committee business that was transacted. Belieu agreed on all of this and arrangements were made to point out the specific spots.

7. Talked with Boyd Crawfords indicating that the Agency would brief the Latin American Subcommittee of House Foreign Affairs concerning the general situation in Cuba, Panama and the Dominican Republic. This will be an informal briefing session with no reporters present. By arrangements with General Catell and Mr. Amory, [redacted] [redacted] will conduct the briefing.

JOHN S. WARNER
Legislative Counsel
